REMARKS <u>This is UNEVALUATED</u>		

1. Except for truck [ ] driven by a soldier with red-bordered black epaulets, no other vehicles and soldiers were observed at the Albrechts Kaserne at Korneuburg (O 49/S 30) on the morning of 5 July 1954. The installation probably was occupied by a guard detail only. On the same day, no weapons, or motor vehicles or equipment were observed at the cantonment on the road to Leobendorf. Six tents, each with a capacity of 20 men, were erected in the cantonment area. About 20 soldiers and truck [ ] were seen at the installation. The soldiers and the truck driver wore red-bordered black epaulets. Trucks [ ] were loaded with food supply at the ration supply depot on Bahnhof's Platz. No soldiers and vehicles were observed at the office and the garage on Hoven Gasse.
  2. On 7 July, no weapons, no motor vehicles or equipment were seen in the area of the Artillerie Kaserne at Stockerau (O 49/S 21). A group of 15 soldiers engaged in athletics in the barracks yard. Truck [ ] was observed at the installation. A major wearing red-bordered black epaulets with artillery insignia left the caserne. Truck [ ] which was covered with dirt came from the direction of the highway to Horn (O 49/R 83) and entered the Prinz Eugen Kaserne. The driver wore red-bordered black epaulets. Six trucks were parked at the troop quarters on Schaumann Gasse which was guarded by a sentry wearing red-bordered black epaulets with motor transport insignia. Truck [ ] left the installation. No activity was observed.
- Comment. The bulk of the 23d AAA Div from Korneuburg and Stockerau moved to the Apetlon AAA Range. [ ] The truck coming from the direction of Horn, that is possibly from the Doellersheim troop training grounds, belonged to the 23d AAA Div. This indicates that individual components of the 23d AAA Div were also possibly stationed at the Doellersheim troop training grounds. The other vehicle [ ] observed at Korneuburg and Stockerau also belonged to this division.
